\*\*\*Please note, in research I found this list was comprised for the television show *Supernatural*. We advise using this list as simply a guide to help understand why a certain demon may be calling itself by one of these names. Sometimes it is simply enough to say, "You demons that are causing depression, Come OUT!" Other times you may confront a demon that calls itself by a given name.

Say a demon manifests and it calls itself Labal. You are ministering to this person on depression, and healing may have come a long way, but you have not been able to break its hold....so back to Labal, who and what is labal? Researching you find,

" Labal a small black demon with demonic **energy flowing from his eyes**. He is a vampiric demon." You also find that this name is linked to a video game so does this make the research valuable?

In my opinion it does. We have seen demons name and call themselves a huge variety of names. In this case, the demon was a vampire type demon that was sucking the life, vitality and energy out of the person, targeting depression with other demons to create a network to keep the person in bondage. After calling Labal out, breaking that vampire type spirit, and binding its network unto this evil spirit, freedom was able to be obtained with full deliverance by Jesus. Halleluiah!!

In any event, use this list with discernment. It is simply to be another tool in your Deliverance Tool Box.
